The Cubby Play Area

My school has an area filled with materials to make cubby houses.

The materials in this area are for all the children to use.

Sometimes there is not enough material for everyone to build with. This is ok.

If this happens this is what I can do:

1. I can join in with some other children and play with them. I will try to choose someone who I play well with.

2. I can walk away and come back at another time when it is not as busy.

3. I can do another activity on my list.
