Using the Internet at School

At school I get to use the computers and go on the internet.

Our grade uses the computers and the internet on Mondays and Fridays in the Library. This is the right time to use them.

When it is computer time it is good to look up information that my teacher has asked me to.

Sometimes I will be able to look up other things when my teacher tells me.

When my teacher tells me it is time to stop, I will shut down the computer.
